

Frost Eater

There is a woods, it is a very dark and gloomy woods...
All the animals are peaceful, except one animile.

Oh how she STAMPS and ROARS.
The other animals always tremble with fear, because of her claws.

Her scaly legs and body scratch against the ground.
Her twirling tail trails behind her.

Her name is Frost Eater.
Her friend Peter, he ran away the last time she said, "Hi."

The Frost eater's friend Foxy scrambled into her hole
And Fluffy the bear fell asleep, of course.

The animal's weakness is that when it gets hot,
(Which happens quite a lot),
She loses a scale. Everyone screams and shouts.

Even the bears get scared, hide in the trees, hide behind bushes.
Runaway from the terrible Frost Eater.
And the poor Frost Eater,
Sad and alone forever.
