

The Fidaly Fungle

Through the dangerous Jiggly Jungle,
Pounces the blood dripping Fidaly Fungle.
Her red blood dripping mouth is poisonous,
Her pointy tail looks like a spike.
Her mouth opens with a screech!
Her eyes close with a splat!
She has ten thorns upon her back!
On each of these there grows a crack!
But if she slurps the Purple Ant,
That creeps inside the Chipchap Log!
Her pointy tail begins to get thinner!
And the rest of her body begins to shrink!
What's left is her thin tail!
